

LG Home Appliance Introductions

Summer 2024

LG is committed to making sure that each of our products perform at the highest level for years to come. We are constantly innovating to make sure our customers can purchase with confidence, and pride ourselves in creating the most reliable appliances on the market.

*According to a 2023 leading consumer testing organization

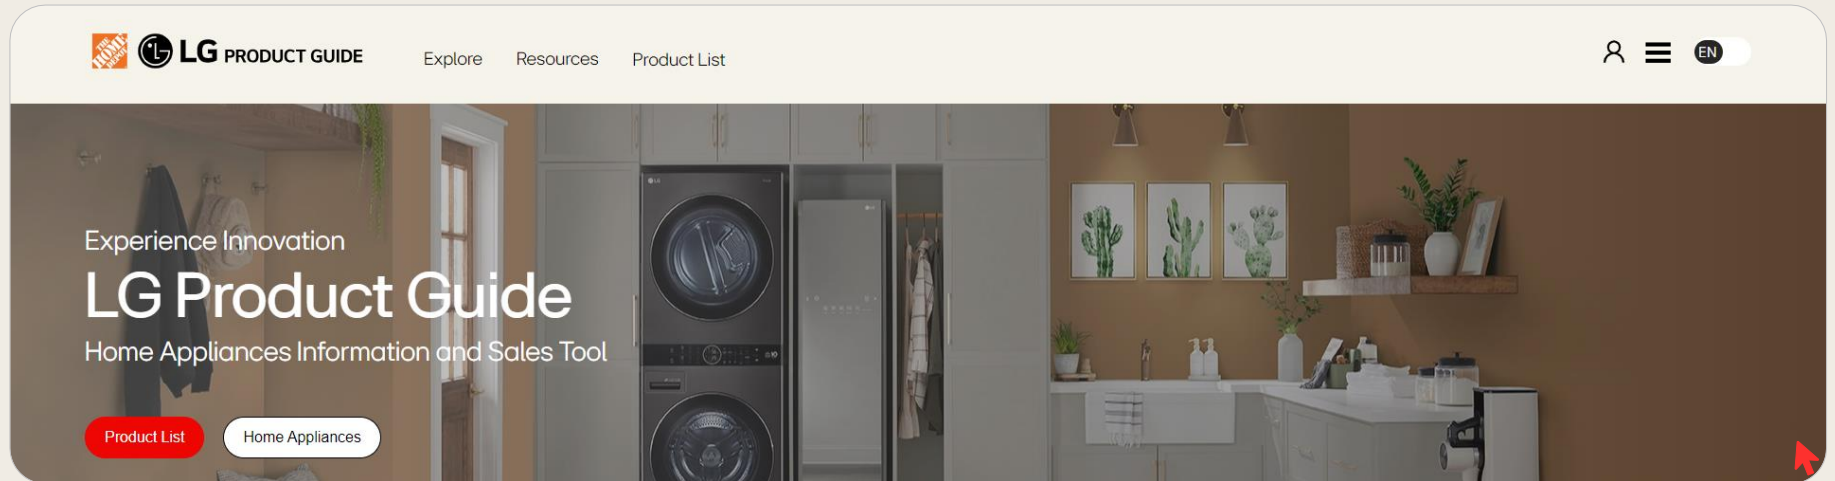

In 2024, Consumer Reports has updated their Appliance Brand Reliability Rankings and LG keeps its place at the top of the chart. LG rates second overall, and number one when it comes to brands that have been tested across every major category. This means that you and your customers can feel confident when making the choice to purchase any of our appliances.

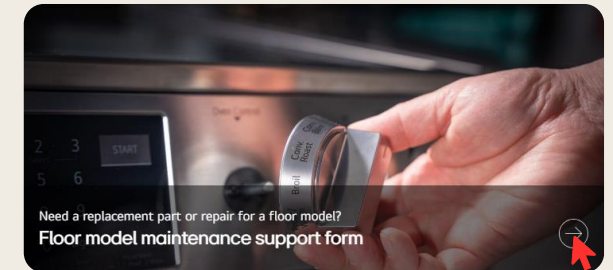

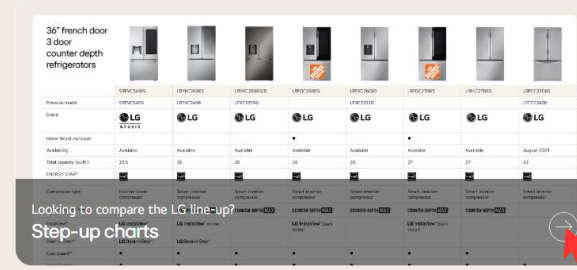

Product Guide

This is where you'll find detailed information on every single LG appliance! Its Product List also lets you build and print appliance info packages for your customers.

LG's Smart Cooling System

Our innovative cooling technology is designed to maximize food preservation by minimizing temperature fluctuations. Our smart compressors react quickly to humidity and temperature changes to help keep your food fresher, longer. Meanwhile, strategically placed vents in every section help to surround your food with cool, fresh air no matter where you put it. All this amazing cooling is also backed by a 10-year part warranty on each and every compressor we manufacture.

New Side-by-Side Refrigeration

Key Features

Capacity

Due to LG's design advancements our models carry some of the largest footprint to capacity ratio's. Standard-depth is 29cf & counter-depth is 23cf.

Smart Inverter Compressor

Powered by LG's inverter technology these compressors maintain precise temperatures. This ultimately provides exceptional food preservation that's also backed by a 10-year warranty.

Door Cooling+

Fresher is better, with Door Cooling+ LG took its Smart Cooling system one step further by adding a front vent to provide a steady supply of cold air to help keep door contents at peak freshness.

Induction Cooking

LG leads the pack in induction ranges, earning top marks from Consumer Reports. Known for innovation and reliability, LG models boast high performance cooktops, advanced cooking features and energy savings.

LG Induction Cooktops & Ranges, First in Industry Certified to New Energy Star Specs

As ENERGY STAR Partner of the Year, we are proud to usher in the new ENERGY STAR cooking category, which will help consumers further reduce their carbon footprint. ENERGY STAR certified induction cooking products are key elements of our broader electrification strategy, which empowers customers to convert buildings to conserve energy, saving money and protecting the environment in the process.

MVEF1337F

30" Low Profile OTR

1.3 cu.ft.

550 CFM's

Powerful ventilation (4 speeds)

Zero Clearance Hinges

Can be installed adjacent to walls

September 2024

Current Projected Ship Date

Additional Features

SmoothTouch™ glass controls (bottom)

WideView™ window (full length door)

1000W power output

Sensor cook, sensor reheat, auto defrost

EasyClean® interior

Strip LED lighting

ThinQ® Wi-Fi

Smudge Resistant Stainless Steel

29/75"W x 11.9"H x 19.1"D

MVEF1323F

30" Low Profile OTR

1.3 cu.ft.

400 CFM's

Powerful ventilation (4 speeds)

Additional Features

SmoothTouch™ glass controls (side)

WideView™ window (split design)

Auto cook, auto defrost

EasyClean® interior

LED lighting

ThinQ® Wi-Fi

Smudge Resistant Stainless Steel

29/75"W x 11.9"H x 19.1"D

Zero Clearance Hinges

Can be installed adjacent to walls

September 2024

Current Projected Ship Date

Low Profile Over the Range Microwave's Key Features

Low Profile Design

Powerful Venting

Zero Clearance Hinges
